## E-Amrit portal

### Why in News?

India launched the 'E-Amrit' web portal on electric vehicles(EVs) at the ongoing COP26 Summit in Glasgow.

- E-Amrit is a **one-stop destination for all information on electric vehicles such as** purchase, investment opportunities, policies, subsidies etc.
- The portal has been developed and hosted by **NITI Aayog** under a collaborative knowledge exchange program with the UK government.
  - As part of the **UK–India Joint Roadmap 2030**, signed by the Prime Ministers of the two countries.
- **Developed and hosted by:** NITI Aayog under a knowledge exchange program with the UK government as part of the **UK–India Joint Roadmap 2030**.
- **Aim:** to complement initiatives of the government on raising awareness on EVs and sensitizing consumers on the benefits of switching to electric vehicles.
